

Stearn Electric Company Limited

Year ended 31 December 2020

Directors' Duties - S172 Companies Act 2016

The board of directors of Stearn Electric Company Limited consider, both individually and together, that they have acted in the way they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole (having regard to the stakeholders and matters set out in s172(1)(a)-(f) of the Act) in the decisions taken during the year ended 31 December 2020.

Our key stakeholders are our employees, customers and suppliers, the community and environment. These are considered our key stakeholders as they have the most impact on the long-term success of our business

Below are examples of how the directors engage with key stakeholders:

Employees

As explained in the Report of the Directors, the involvement of employees is vital to our businesses and the directors keep them informed on matters affecting them as employees and the various factors affecting the performance of the Company. Employee representatives are consulted regularly on a range of matters concerning their interests. The directors also maintain an open-door policy and all employees are encouraged to bring forward their views on all aspects of the Company. The directors consider the above to be effective as it provides a platform for a two-way communication where concerns and ideas can be passed upward where necessary, so that the business can take advantage of opportunities quickly. This also enables key decisions to be taken with the benefit of local feedback.

Customers and Suppliers

The directors place considerable value on the engagement of customers and suppliers in making decisions taking on board their views and insights through regular dialogue and meetings. We operate on a multi-branch business basis with a high level of decentralisation backed up by strong controls and a reward structure that is based on local performance and individual contribution. Our strategy is to provide the highest possible service to customers. The ability of our branch managers to determine all aspects of their business ensures they are strongly focused on providing the best service to their customers, supporting our key suppliers to get their products to market and employing, retaining and rewarding a high-quality team. We also host customer and supplier events at local and national level, including training for both customers and staff. We work together with our customers and suppliers for the mutual success of our respective businesses. The above aids the achievement of our key performance indicators because by supporting our customers and suppliers' efforts to bring products to market at fair prices, with rigorous quality control and high levels of availability, we ensure that we maximise the opportunities we have for our mutual interests whilst observing our mutual responsibilities to the wider community and environment.

The success of the above is measured using our key performance indicators of turnover and operating income. These key performance indicators, together with customer and supplier feedback were useful early warning indicators that helped the business identify the issues noted in the business review and appropriate action, such as focus on cost reduction, were taken which helped minimise the impact that Brexit planning by the market and the seasonal variations had on our results.

Community and Environment

In formulating our plan, we took into account the impact of the Company's operations on the community and environment, our wider social responsibilities, and in particular how we comply with legislation and react promptly to local community concerns such as giving staff time-off to perform voluntary activities to help local charitable causes.

As the board of directors, our intention is to behave responsibly and ensure that the management team operate our businesses in a responsible manner, operating within the high standards of business conduct and good governance expected for a Company such as ours and in doing so, will contribute to long term success of our Company.

This is achieved through training, management having regular dialogue with our teams and monitoring through our internal audit function. The intention is to nurture our reputation, through our actions, that reflects our responsible behaviour.

The regular engagement by the directors with all stakeholders such as those described above enables the directors to enhance their awareness of the market, improve decision making and promote the long-term success of the Company more effectively and observe the principles of s172.
